Seek Teenagers In Thefts

Two armed Hancock county youths, one a "three time loser", are being sought by law officers in the county's woods for numerous burglaries during the past weeks.

Sheriff Sylvan J. Ladner reported that two brothers, aged 15 and 17, were being questioned Sunday in Waveland about a theft-wave and escaped into nearby woods. Names of the youths are being withheld until capture for security reasons.

Guns-Ammunition Stolen

During an interrogation the two admitted a wave of burglary on South Street in Waveland, during the week of Nov. 16-17, in which shot guns, pistols and large quantities of ammunition were stolen.

The sheriff said the 15-year-old is an escapee from the

Columbia Correction School, where he has broken out three times.

At the home of M. E. Sanders a 12-gauge shot gun, 22-calibre repeating rifle, a bone-handle knife and other articles were stolen, with the weapons later being recovered.

More Weapons Taken

A 12-gauge pump shot gun, 38-calibre pistol, 22-calibre rifle, seven boxes of shot gun shells, a box of 38-calibre shells, one Very (flare gun) pistol, boots, hunting jackets, a hunting knife, gun case, two thermos bottles and a large quantity of canned goods were stolen from the Allen Hickey home, also on South Street.

While investigating, the officers found stored in the home of a summer resident, Anthony

Pagano, where the youths had hidden them, several articles, including the canned goods, and the Very pistol, a bicycle stolen three weeks ago from Mrs. Spiers, Water St., Waveland, were found in nearby woods.

Hickey's shot gun was found under the steps at Baldwin Lodge, also broken into last week.

Also at Baldwin Lodge the officers found 125 shot gun shells, 100 rounds of 22 shells, 300 rounds of 38 calibre ammunition, and also a small camera, pair of binoculars and a flashlight, which are as yet unidentified.

Investigating officers in addition to sheriff Ladner also included deputy sheriff Gerald Favre and Waveland Town Marshal Fred Bourgeois.

Hancock county's third producing oil well reported early this week for Marshall R. Young, who also claimed the county's first two.

No. 1 Azoline F. Thian, sec. 24-36-16w is being tested in Ansley field after the Cuevas sand zone of the Washita-Fredrickburg formation was oil-sand fractured.

Fracture was with 10,000 gallons of oil and 8,400 pounds of sand, and section being tested in at 10,330-40 feet.

The venture, went to a depth of 13,500 feet and backed up to the Cuevas peak where fifty barrels of oil are being produced. However, week testing is still going on. Clyde Ray, spokesman for Young told the Sea Coast Echo.

Meanwhile a \$60,000 oil venture in the Bay of St. Louis has been declared a "dry hole" by its owner, J. Willis Hughes.

In a telephone conversation with Hughes in Jackson, the wildcatter said the rig would probably be moved out this week and by its owners, Carter-Beveridge Drilling Co., contracted for the three-month venture.

The rig, named the No. 3 State of Mississippi, is located a few hundred feet south of the Bay St. Louis toll bridge and has been a lighted landmark in Hancock county since Aug. 9, when floated in.

The rig's rig went to a depth of 9,991 feet before being given up as the county's tenth dry hole.

Hughes, who has a permit for a No. 2 State of Mississippi also designated for the Bay St. Louis, said plans to examine the data collected from the Bay well before making a decision on the No. 2 state of Mississippi.

Young's Cuevas well, discovered in December, is shut-in, only producing as gas is burned, while the International Paper No. 1 is producing 178 barrels a day.

Ray said over 60,000 barrels has been drawn in Hancock County this year, the minimum value being \$2189 a barrel. He estimated that over half-a-million dollars has been invested by Young in oil ventures in the area, which has found seven dry holes and three producing wells.

Hughes' Bay venture was the third offshore oil attempt staged in Mississippi. Both others also failed.

Still Planting Time

Wheat can safely be planted until November 15th for grain. Tests show wheat planted this late does as well or better as when planted in the early fall.

Sixty to 70 pounds of seed per acre is enough for grain. For grazing, 90 to 100 pounds will be better.

If you failed to get all your oats planted earlier, don't hesitate to go ahead and plant them now. Where grain only is wanted, fertilizer should be left off until spring. The small grain can be topdressed then with the recommended amounts of fertilizer.

Winter peas can still be planted in Bermuda or Johnson grass sod. A sod seeder should be used for this planting so that the peas will be covered. Don't plant winter peas on top of the ground at this late date. If a freeze catches them as they are germinating, it will kill them.

Crimson clover can still be planted on cultivated land or sod land, provided the seed are covered. Crimson clover is like winter peas, if planted on top of the ground now, it is likely to get freeze-killed.

Farmers who have not yet fertilized their permanent pastures, are urged to do so this month. Care should be taken not to burn the young plants with them, but finely ground fertilizer should only be applied when the plants are dry.

November and December are ideal months to lime pastures. Recommendations are one ton on sandy soils and two tons on heavy soils. For specific recommendations on your particular farm, a soils test is suggested.

"How much more do I get now?"

Everyone knows it costs more to build nowadays; materials of all kinds are up and so is the pay of construction workers, just like the pay of workers in most all lines.

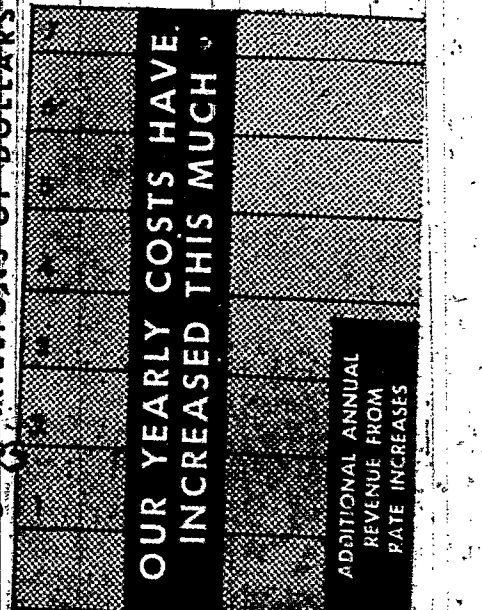

Southern Bell employees in Mississippi, for instance, have received six wage rate increases since 1949... This, and two other items: an income tax increase and cost increases associated with our additional investment in the State - have added over \$7 million a year to our cost of furnishing service... and to offset this, we are receiving additional revenue of only \$3 1/2 million a year from rate increases.

Adequate earnings are necessary to keep telephone service good and to enable us to improve and expand it in step with Mississippi's growth and progress... We need to spend another \$34 million in the State in 1956-57, which must come from investors, who will let us use their money in expectation of a reasonable return.

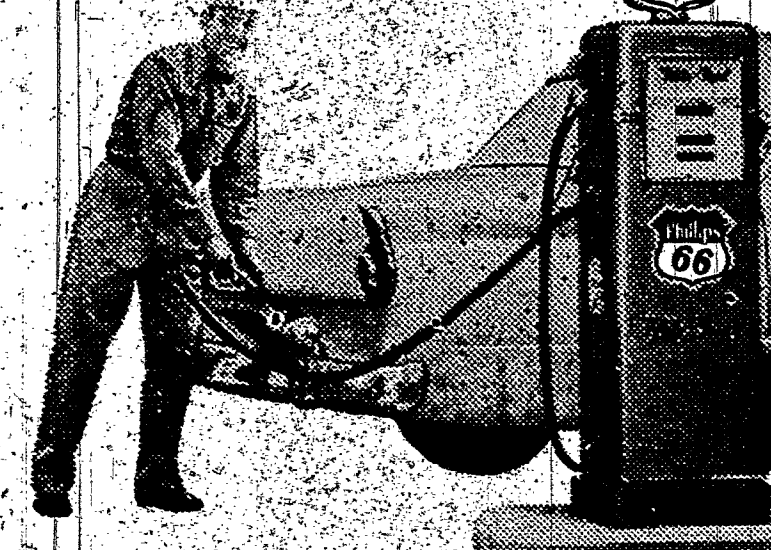

To raise earnings to a reasonable level, we are asking the Public Service Commission to make a thorough study of our revenue needs and to set rates that will be fair to telephone users and the Company.
